Sri Yarlagadda

FRONT-END DEVELOPER/UX DESIGNER

SUMMARY

A creative and detail-oriented Front-end Developer/UX Designer. I have built interactive and user-friendly websites, highly skilled in HTML, CSS, JavaScript, and responsive design principles. Adept at understanding and translating user needs into intuitive and visually appealing interfaces. Strong collaborator with a proven track record of delivering high-quality projects on time and within budget. Passionate about creating seamless and engaging digital experiences.

EDUCATION

Bachelor in Technology - CSE (Honors) Aug 2022 - Present
KL University

PROJECTS

Food Ordering website Aug 2023 - Nov 2023
Team Lead, CSS designer, Frontend Developer

A Basic food ordering web page with crud operation has two different loggings (Users and Admins). Users can add the item to the order list and order the item with a payment page processing the total amount. While the Admin can create, edit, update and delete the items with a well-designed Database. MongoDB compass is used for database storage.

JavaScript, Html,Css for front-end

Hotel Booking Management System Jan 2024 - Apr 2024
CSS Designer, Front-End Developer

My Hotel Booking website name is BROADOAK, which has several hotels listed according to the area's availability and the User can search according to the amenities they want by using the filter option. Users can also check whether the booking is available for a particular date. The Admin has a different login credentials which after login has CRUD operations for adding or deleting a particular hotel. Django frame is used for database storage with SQLite3

Python,Html,Css for front-end

Electrical Car charge finder Apr 2024 - May 2024
UX Designer

It is a UX Designed Prototype which was built by using Figma tools. It has all the features and animation through flow operation in Figma to make it a high fidelity prototype which I did for the stimulation program under BP Company
